

Referral Agreement

NetworkAiBot · Effective 5 September 2026 · English

1. The programme

NetworkAiBot pays a 10% direct referral on qualified stakes placed by members you personally introduce, and 10% binary matching on paired volume, subject to the package binary cap in the English business plan. Rank rewards and monthly salary follow the published ladder.

2. Honest promotion

- You may share your referral link. You may not promise guaranteed profit, hide risk, or impersonate the Platform.
- Paid ads, spam, and misleading “signals” that use the NetworkAiBot name without approval are forbidden.
- You must make clear that you are an independent member, not an employee or licensed advisor of NetworkAiBot.

3. Qualifying volume

Only activated stakes in USDT on BEP20 count. Cancelled, refunded, or fraudulent stakes do not. Each rank consumes the personal volume that earned it; the next rank counts from zero.

4. Placement

New members are placed in the binary tree automatically. You may not sell positions, rent accounts, or operate farms of accounts to manufacture volume.

5. Payment

Referral and binary income credit the Income wallet and may be withdrawn daily under the Client Agreement. The Platform may withhold payment while it reviews suspected abuse.

6. End of participation

We may close the referral programme for an account that breaches this agreement. Questions: support@networkaibot.com.
